WHAT IS THIS PROGRAM ABOUT?

Emirates Youth Leadership (EYL) is a personal development training program customized for UAE nationals, who are looking forward to taking their leadership and entrepreneurship skills to the next level. It is a 3 months in-person training program that teaches you how to improve your leadership and communication skills to create positive change.

This program is based on a proven educational method that is focused on each individual's well-being and soft skills. Attending EYL is 100% satisfaction and money back guaranteed.

MISSION & PURPOSE

We are selecting an exclusive group of individuals who are committed to personal growth and transformation to serve and represent the UAE's future vision.

EYL is a practical program that has been developed with input from top experts in the field of leadership, communication, and emotional intelligence which will help you to close the gap between where you are and where you want to be in your personal life and your professional career. During this program, you will get a chance to practice new tools, strategies, and techniques with direct feedback from your coaches and mentors.

This is an opportunity for you to gain remarkable soft skills that can support you in achieving your dreams and goals.

LEADERSHIP MASTERY

Leaders understand peoples' needs profoundly and are capable of solving real problems so they can serve authentically and create a positive lasting impact. At EYL, you will have the opportunity to go through a journey of self-discovery and a better understanding of WHO you are, WHY you are here on this earth, and your true PURPOSE in life. As a result, you become a resilient leader and empower the people around you. It is about aligning the core values and beliefs that can lead you to personal satisfaction and victory in a sustainable manner.

COMMUNICATION & PUBLIC SPEAKING MASTERY

Communication and speaking is one of the most important skills for any leader. In this program, you will learn to structure your communications and especially your speaking engagement to deliver your message with impact for positive change. You will be inspired to become an outstanding communicator, and as a result, your speaking style will improve rapidly. We will share with you some tools and strategies that you can implement immediately to create the desired results. Today, leaders are often evaluated by their abilities to speak effectively in the presence of others. Becoming a better speaker is both a learned skill and an art. At EYL, you will gain both the skills and the craft of communication as well as the art of speaking.

EMOTIONAL MASTERY

Emotional mastery is about self-awareness and the ability to use certain behaviors, attitudes and personality traits that can cause a person to stay happy and perform at their best. During this program, you will build emotional muscles that can help you to overcome negative emotions like frustration, sadness, hurt, embarrassment, and even depression. These are the emotions that we call **“Action Signals”**, and during the training sessions, you will get a chance to practice and implement tools and techniques to turn the action signals into **“Power Emotions”** like: gratitude, love, passion, happiness, and excitement. This skill will eventually become a daily habit and not only will you understand how to leverage emotional mastery (mindset), but you will also master emotional fitness which is building emotional muscles that can serve you to be at your best, feel your best, so that you can give your best.

RELATIONSHIP MASTERY

The purpose of a relationship is to magnify human emotions. If you are not happy and fulfilled in your relationships, you are not happy and fulfilled in life. At EYL, you will learn that the quality of your life is the quality of your relationships. You will have an opportunity to study and educate yourself about the masculine and feminine energy. You will be equipped with several tools and strategies to communicate with others in a more meaningful and empowering way. You will become a master in your relationships.

BUSINESS MASTERY

Building a successful business is about taking the invisible and making it visible. It's a spiritual game and an opportunity for you to grow beyond yourself and contribute to the world. If you want to learn to build a successful business, this program will give you some powerful tools and strategies for business mastery. We will take you through a model that shows you the difference that makes the difference in the quality of a successful business. It is about two things: innovation, and marketing. At EYL, you will learn and master both.

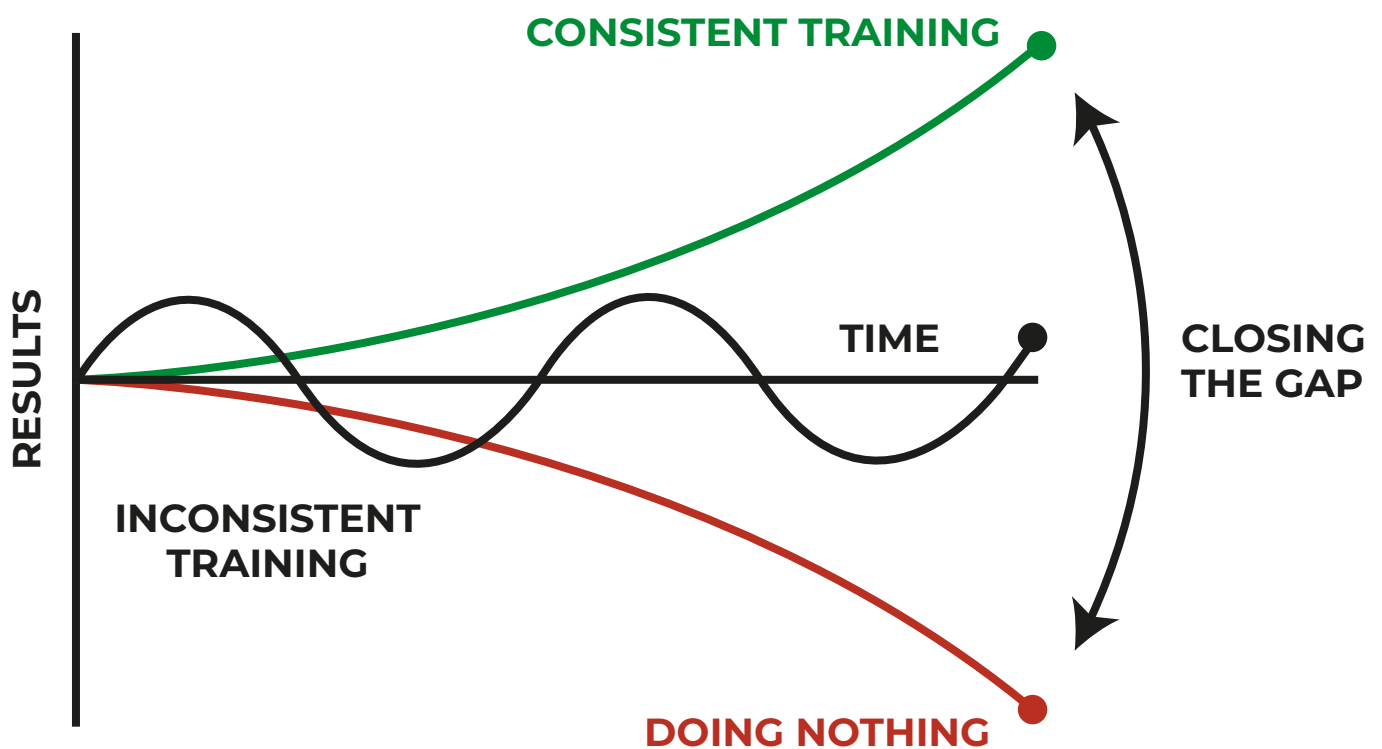

FINANCIAL MASTERY

If you want to become truly wealthy, you have got to study the essence of wealth which is a good portion of our focus at EYL. You will install new beliefs of wealthy and successful people that are adding massive value to society. You will start behaving differently by practicing your new habits of financial abundance. You will learn that the only way to become truly successful and wealthy is to add more value to other people's lives than anyone else is adding in the same market. The more you give, the more you will receive on an ongoing basis.
